

International Taxes And Transfer Pricing

The business world today is global and many companies manage their activities in different tax territories. A multi national company disperses its activities around the globe and must take into consideration various factors – the cost and skills of the employees, politics, government assistance, trade risks, and of course, tax rates.

A company about to begin activities in a new territory, or one which is expanding its existing activities, is recommended to consider all the tax regulations before making any decisions. It is also worthwhile to check out this matter when there are ongoing changes occurring both inside and outside the company.

Investigating transfer prices in transactions between companies. The law in Israel, as well as in many other countries worldwide, insists that a transfer price study be done on transfer prices between countries involved in different tax territories. Mabat Consultants, in cooperation with other offices of the Praxity Network, offers its clients a service package on the subjects of international taxes and transportation costs which include:

1. Initial planning of tax charges in relation to various factors including:
 - Tax rates in different countries
 - Government support
 - Transfer of funds to the parent company and its owners
 - Customs
2. A transfer price study
3. Help in preparing agreements between the different companies with regards to transfer prices.
4. Periodical reporting on transfer price study.
5. Periodical check on the tax situation.

In addition, Mabat Consultants offers its clients assistance and consultation on issues relating to both companies and individuals such as:

1. International tax conventions
2. Taxes for foreign citizens
3. National Insurance - costs and rights
